

Case Study

Wentworthville Leagues at the Forefront of Cash Management Technology

The Challenge

Wentworthville Leagues Club is a large and successful Club based in Western Sydney, Australia. With a high volume of internal cash transactions and over thirty registers departing and returning on two shifts per day.

The Solution

To improve the management of cash in the business and to reduce the cost of handling cash, the club installed four automated solutions from Gunnebo – two SafeCash Retail Stations and two SafeCash Retail Recyclers.

Gunnebo's SafeCash Retail Station accepts, recycles and dispenses cash floats with ease, gone are the days of counting cash, saving time and money managing tills. The SafeCash Retail Recyclers will assist the venue with reconciliation of gaming facilities.

The Result

"The SafeCash Retail Station has saved our staff considerable time both at the beginning and end of their shifts," says Nicole Pearce, Chief Financial Officer, Wentworthville Leagues Club. "We are in the early stages of using the SafeCash Retail Station so are working on measuring our exact reductions in cash shrinkage and errors relating to cash handling in the back office, however the results to date are very positive"

With the installation of the SafeCash Retail Recyclers, the time that it takes for the clearance process will be cut in half. "The SafeCash Recyclers will be implemented early in the New Year. We are confident the whole reconciliation process will be streamlined," adds Ms Pearce, "And this will save us time and money."

"The SafeCash Retail Station has saved our staff considerable time both at the beginning and end of their
