GUNNEBO® Hospitality & Gaming Solutions

Reduce losses, increase profits and maximise results

CASH MANAGEMENT SOLUTIONS

Take the pain away from counting, recounting, validating, reconciling and reporting cash by improving efficiencies in the cash cycle and make the whole cash handling process more secure. Gunnebo solutions are used extensively by Casino's, RSL's, Supermarkets, Petrol Stations, Liquor Stores, Quick Service Restaurants, Speciality Retailers and more.

Our total cash handling offering includes back office systems, cash recycling machines, simple cash deposit units, software, service and integration solutions to make the complete cash handling process safer, faster and cost effective.

SAFECASH RETAIL STATION

Full recycling solution to quickly and securely fill, refill and empty tills. The machine simultaneously counts and authenticates notes and coins.

CASH CONTROL

Online Management Software for Cash Management A web-based application gives managers the power to control and monitor the cash management process online.

SAFECASH RECYCLER

Your high speed note deposit and recycling solution for improved cash management and same-day credit. The notes are deposited into cassettes, stacked and sorted depending on configuration.

INTELLI-SAFE™

An under the counter intelligent safe the Intell-Safe offers an automated cash handling system capable of counting depositing and managing multiple denominations of notes.

INTELLI-VEND™

An under the counter change and note dispense and note deposit machine. Ideal to secure and manage change in a high cash environment can manage up to 4 tills.

ADMISSION CONTROL SOLUTIONS

Gunnebo provide a variety of Admission Control solutions to validate and control the flow of people into and out of venues.

QUIKSCAN

Gunnebo's latest innovation QuikScan is your one-stop admission control system providing integration with the major ticketing providers plus local ticket and member card printing for sport, leisure and entertainment venues. The QuikScan solution includes; evaluation and customisation, admission control, ticket validation, software and scanning devices and turnstiles/gates.

SPEEDSTILES

Our SpeedStiles provide high security and high capacity in a single solution effectively preventing unauthorised passage. We offer a choice of walkway widths to eliminate potential discriminations and combine elegant and sophisticated design with the best technology.

SAFES

Trusted the world over, Chubb safes is a leading international security supplier providing solutions for cash and valuable storage, data and document protection.

OMNI DRAWER TRAP

Easy to use, the Omni Drawer Trap comes with a deposit draw that quickly drops cash directly into the safes securing your cash. Ideal for "night" drops.

EUROPA

Perfect for securing large sums of cash, the Europa range of safes can provide protection for up to \$300,000. These fully certified safes are torch and drill resistant and provide the next level protection in the back office.
